To Whom It May Concern,

Re: Broadland Construction and Interiors Ltd

We herewith confirm that we have worked throughout the last 15 years on numerous private and commercial projects with Broadland Construction as the main contractor. Many of these projects ranging from small scale to large scale contracts have been published in magazines and books worldwide. In this period of successful collaboration Broadland is known to us as reliable, responsible and accurate in programme, costing, and the consistency in the quality of their work. Most importantly they are constructive and pro-active when it comes to solving difficulties and problems. We therefore can highly recommend any private or commercial client or professional to us Broadland Construction and Interiors for their project.

Yours faithfully

Nico Rensch
